Review-2021**

[Read Customer Reviews](#)

NEW 12 cups each come with a Removable & Reusable hello name tags (12 different colors) - with no sticky residue!

12 Clear Bulk Pack - Great for Bar-B-Q's, Home Use, Picnics, Office, etc. Double Wall Insulated to Prevent Condensation or 'Sweating'.

BPA Free 16-ounce cups; fits most car cup holders - have your favorite beverages on the go
Classic double wall insulated design to keep both "hot" or "cold" drinks at the right temperature
Rinse & Reuse | Top-Rack Dishwasher Safe | Large Opening for Easy Filling and Cleaning | Made of BPA Free Acrylic Materials Non Toxic / BPA Free

Capture tumblers are crafted using only BPA Free high-grade acrylic plastic. They are re-usable and completely safe with non-toxic plastic.

Note: What is BPA (Bisphenol A)? Some research has shown that exposure to BPA, an industrial chemical, is a concern due to possible health effects on the brain, behavior, and the prostate gland of fetuses, infants, and children.

Premium Grade Acrylic

Only the best plastic grade is used for our tumblers. While free from impurities and cloudiness, it is also more lightweight and durable than glass.

Its double wall design provides good air insulation that keeps both hot or cold drinks at optimal temperature longer. Additionally, no 'sweat' from condensation will form on the exterior of the tumbler.

Crack Resistant / Flexible

While other straws are made of acrylic plastic, which is brittle and potentially harmful, we only use food grade polypropylene plastic for our straws.

It is stronger, more flexible, as well as break and chip resistant, preventing sharp hazards. Not only have we made it safer, we have also made it twice as thick for extra durability.

Free Name Tags Included

Comes with complimentary 12 multi-colored name tags! No sticky residue will remain after using these name tags. They are great for birthday parties, celebrations, and other events.

Assign them to friends and customize with names. Entertain guests with a personal surprise. Best of all, remove and re-use them as many times as you want.

Classy, Clear, and Completely Reusable

It's a Party!

- This party pack is perfect for the hostess with the mostess. The classic clear cups are the perfect blank slate for those who want to add a personal touch to their favorite cups.

- Decorate your cup and give it out as a goodie bag, or have your guests write their names on their complimentary removable nametags to reduce one use plastic cup waste, and keep track of assigned drinks.

Life on the Go

- Help protect the environment with these multiuse cups. Instead of reaching for a single use plastic water bottle that creates immediate waste, fill up your Capture tumbler at home with some ice water.

- Hurting for your early morning coffee? Bring a clean Capture tumbler to your favorite coffee shop and your barista will fill it up with your go-to iced latte, most likely at a discount, too.

Simple Elegance

- This party pack of tumblers comes in two options the Classic Clear Tumblers for those who want a more uniform look or the Classic Candy Tumblers for those who prefer to color code.

- Both sets are great for all of your drinking needs, and perfect for all the DIY-ers out there. Start with your blank slate and upcycle them to meet your needs.
