

Gillette ProGlide Shield Men's Razor Handle + 4 Blade Refills Review-2021

[Read Customer Reviews](#)

Refills fit all Gillette 5-Blade razor handles (excluding gillette labs)

Lubrication before and after the razor blades helping shield from irritation while you shave

Flex Ball handle technology responds to contours and gets virtually every hair

Micro fins stretch and smooth skin while the micro comb guides hair to the blade

Precision Trimmer on the back for hard-to-reach places and styling
Shielding Lubrication Before & After the Blades

With 2x lubrication* that helps shield skin from irritation while you shave giving you uncompromising closeness and comfort. (*vs ProGlide)

Precision Trimmer for Details & Styling

A precision trimmer on the back for hard-to-reach places and for styling your facial hair just the way you want it.

5 Blades for a Close, Long-Lasting Shave

Featuring 5 anti-friction blades, spaced closely together, for incredible comfort and a shave you can barely feel. One razor blade refill lasts up to one month of shaves.

Flexball Technology that Responds to Contours

The Flexball technology is designed to respond to facial contours. This means that even over the trickiest areas it gets virtually every hair, giving you uncompromising closeness and comfort.

What is FlexBall Technology?

Handles featuring FlexBall Technology allow the blades to respond to the contours of your face. This means a close shave with fewer missed hairs (vs. Fusion5 in a single stroke over the contours).

How long will the Gillette ProGlide razor blade refill last?

How long a razor blade refill lasts is dependent on many variables such as beard toughness and thickness, beard preparation, shaving habits, and skin sensitivity. The Gillette ProGlide™s reformulated Indicator Lubricating Strip (vs. Fusion5) will provide you with a visual cue – it fades to white – when optimal shave conditions have been reduced. When this happens, you might want to consider changing your razor blades to get an optimal shave.

What are thinner, finer blades, and how will they improve my shave?

Gillette ProGlide men™s razors have been engineered with Gillette™s thinnest, finest blades* to glide through hair with less tug and pull.***

What is the precision trimmer?

The ProShield Precision Trimmer, on the back of the blades, features an enhanced blade and anti-clogging rinse slots – perfect for hard-to-reach areas.

What is ProShield Lubrication?

Unlike other razors, ProGilde Shield is our first razor with lubrication before and after the blades to shield from irritation.

Will Gillette ProGlide razor blade refills fit any other razors on the market?

Yes, all ProGlide blades fit all Fusion5 & ProGlide razors.

Should I still use a shave gel product with the ProShield razor?

Yes. Using a non-drying shave gel, like Fusion ProGlide Sensitive Shave Gel, softens hair and helps defend against nicks and cuts.
