2) Protective case for hygienic and convenient storage

3) Special cut out design to maximize skin to skin contact

Lansinoh Nipple Shield for Breastfeeding

For Latch-On Issues

These breast shields for breastfeeding are made out of ultra thin, super-soft flexible silicone that's BPS and BPA free. With these nipple guards breastfeeding isn't disrupted because the cut-out design provides maximum skin to skin contact the entire time. Each set of nipple shields comes with a protective case for hygienic and convenient storage between uses. A nipple protector for breastfeeding should only be used under the advisement of a healthcare professional.

Contains protective case and 2 nipple shields

BPA and BPS Free

Available in multiple sizes: 20mm and 24mm

Flexible Silicone

Made with ultra-thin, soft, and flexible silicone for maximum comfort.

Safe for Mom and Baby

Our nipple shields are BPA and BPS free, so you can use during breastfeeding.

Designed for Breastfeeding

Special cut-out design provides maximum skin to skin contact for uninterrupted breastfeeding.
