Elastic closure

Great Material: The children's sun hat is made of 100% high quality quick-drying nylon fabric which is very soft to the touch, lightweight, durable, waterproof and breathable. The inner sweatband will absorb any excess sweat and the mesh vents on the side keep kid's head cooler and comfortable.

Adjustable Size: Head Circumference:20-22 inches, fits most kids ages 4-12. It could fit some adults with slightly smaller heads as well. Elastic adjustable back band and chin strap provide a comfortable fit and keep the hat from being blown away on windy days. Also, because of the adjustable draw string, your child will be able to use this over the next few summers.

Excellent Sun Protection: Features UPF 50+ fabric which block 98% of UV rays. 4.3 inches brim is wide enough and 9.0 inches flap is long enough to cover girl's or boys' eyes, nose, cheeks and back of neck in direct sunlight then protect delicate skin from the scorching summer sun. So there's more time for enjoying outdoors.

Best fishing hat for kids: The summer must-have bucket hat has different colors to be choosed, it is easy to wear and pair perfectly with sunglasses, sun protection rash guard swimwear sets and sunsuits. With this sun protector cap your child will be the cutest one.

Functional: The hat is packable, it can roll up to a compact size and easily stows in a bag or backpack. It is a perfect hat for child & youth playing at the beach or in the backyard, playing in the sand, go to fishing, safari, explorer, travelling, hiking, camping, tourism, gardening, boating, pool, park or any other outdoor activities. Muryobao kids' flap hat is the best investment you can make in sun protective wear for your children or grandchildren! Kids love to wear them, and parents and grandparents love knowing their little ones are staying safely sun protected during their critical childhood years.

UPF 50+ Sun Protection

It's hard to beat the enjoyment of a day in the sun, unless it's a day spent in the shady pleasantness of a UPF 50+ hat.

A rating of UPF 50+ is the highest sun protective rating achievable and means only 1/50th or less of UV rays are able to pass through, allowing you to diminish the sun, not the fun!
