[Read Customer Reviews](#)

Please reference Image 6 & our Video for detailed sizing information

Made in Canada | 90% GOTS Certified Organic Cotton / 10% Spandex

DESIGNED FOR A MOTHER'S NEEDS – Our convertible straps can be worn 4 different ways for maximum comfort, while eliminating the worry and stress of spilled milk, thus increasing the amount of milk you will pump.

NO-STITCH FLANGE OPENINGS – Our patented flange openings accommodate all brands and types of breast pumps while providing the perfect amount of support to maximize milk output.

Conveniently insert your flange with one hand and without taking the flange/bottle apart.

3-ROW HOOK and EYE CLOSURE – Just like your regular bra, it is important to have the ability to adjust the size of your pumping bra to accommodate your body's changes due to engorgement and weight fluctuations.

GOTS CERTIFIED ORGANIC COTTON – PumpEase Organic is the ONLY organic pumping bra on the market. A conventional cotton crop uses more chemicals than any other crop. Organic cotton does away with genetically modified plants and harsh pesticides, providing you with an eco-friendly, healthy option. Organic cotton is durable, breathable, absorbs moisture, and retains all of the qualities of regular cotton while being gentler on the environment.

YOUR PUMPING JOURNEY is OUR PRIORITY – We are confident that our pumping bra will make your life easier, by the word of thousands of women that use, love and recommend PumpEase.
