

T.K.Excellent Plastic Self Drilling Drywall Ribbed Anchors with Phillips Pan Head Self Tapping Screws Assortment Kit,66 Pieces Review-2021

[Read Customer Reviews](#)

The split in the ribbed anchors expand on two opposing sides as you tighten the screw, increased holding power

Toggle bolt's wings spreads the force over the bearing surface, comes attached to a screw, use in concrete/brick

Once anchor installed, they provide a flush, clean appearance in drywall

Kit Includes: E6, E7, E8 anchors, #6x1", #8x1-1/4", #10x1-1/2" pan head self-tapping screws (ANSI), and a plastic case

Plastic (nylon) material anchors, no rust, corrosion resistance, anti-aging, good toughness and can be easily removed. Plastic Anchors are one of the most universally used anchors in the hardware market. It can be used with most type of screws.

Expansion drywall anchors are highly versatile.

They can be used with drywall, concrete, brick, mortar, or sheet metal. The anchors are a great choice for light-duty wall-mounting projects up to 20 or 30 lbs so you can use the anchors for pictures or small shelves.

Installation instructions:

1

1. Drill a pilot hole into the wall.

2

2. Insert the Plastic Screw Anchor into drywall.

3

3. Insert the screw through the object you need to fix and insert into the Plastic Screw Anchor.

4

4. Turn clockwise until a firm resistance.

Features & Benefits

Features & Benefits

The Plastic Screw Anchor has notched wings with 2 expansion points to prevent rotation of the anchor as the screw is inserted.
