

Timex Women's IQ+ Move Activity Tracker Smart Watch Set Review-2021

[Read Customer Reviews](#)

Imported

Adjustable tan 18mm genuine leather strap with quick-release spring bars fits up to 7.5-inch wrist circumference; extra teal silicone strap

White dial with gold-tone hour markers; sub-dial displays activity; Perfect Date displayed along bezel

Track steps, distance, calories burned & sleep metrics; sync with your phone via Bluetooth

Silver-tone 37mm brass case with mineral glass crystal; Indiglo light-up watch dial

Water resistant to 50m (165 ft): In general, suitable for short periods of recreational swimming, but not diving or snorkeling

Timex iQ+ Move Activity Tracker - Women's Gift Set
Sophisticated Analog Timepieces Equipped with Discreet and Incognito Activity Tracking Technology

Fitness and activity tracking devices are growing in popularity, but they are falling short in one area: style. The Timex iQ+ Move combines all the signature elements of an analog watch while discreetly housing sophisticated modern technology that tracks daily activity, like steps, distance, calories burned, and sleep metrics.

A Smartwatch Designed for Men & Women

While fitness tracking bands offer genuine health benefits, there are a number of everyday scenarios, like a professional office setting or a formal event where a sporty activity tracker band can clash with the image you need to portray. Consumers are searching for a hybrid product able to fit this very situation.

Incognito Smartphone Connectivity

In keeping with Timex's tradition of innovation, the Timex iQ+ Move is designed for men and women with enhanced Intelligent Quartz movements and discreet smartphone connectivity, so no one ever needs to know you're wearing an activity tracker. The iQ+ collection combines modern technology with Timex's trusted craftsmanship to give consumers more than just a watch.
