Our story

How we got our start?

As a plus-size woman, it's difficult to get some flattering fit tops. It's been a problem for me, and I think it's the same for other plus-size women as well. So I decided to research plus size clothing.

That's how VISLILY came about, because we believe that "beauty is not defined by size."

What makes our product unique?

From the size to the style and fabric, from me alone to the teamwork, we are always on the way to improving our items. Therefore, we have already accumulated lots of fans. The more feedback we get, the better plus size tops we'll create.

Why we love what we do?

No matter how the product changes, we always devote ourselves to plus size clothing. We hope VISLILY can help plus size ladies to find suitable and flattering fashion more easily. Beauty is not defined by size, we hope plus size ladies can also lead the direction of fashion.
